

YOUR DIY CABLE RAILING KIT PROJECT

Make a bird's eye view drawing of the project you desire to create. Be sure to include railing lengths, end and corner post locations, stairs and any angles/turns your railing takes.

Be Sure To Include:

- Name: _____
- Phone: _____
- Email: _____
- Address: _____

- Brief Description of Application: _____

- Post Size(s): _____
- Post Material (Wood, Metal, Composite Sleeve): _____
- If Composite Sleeve, Outside Diameter When Installed: _____
- Height Of Railing: _____
- Are You Using A Bottom Rail?: _____
- Are You Using Single Or Double Post Configurations At Corners?: _____
- Do You Have At Least 3-1/2" Of Space Behind Your End Posts?: _____
- Desired Cable Diameter (1/8" or 3/16"): _____

Sketch Your Layout:

- Indicate Footage Between Posts
- Indicate Spacing Behind End Posts
- Indicate Stairway/Angled Locations
- Indicate End and Corner Post Locations
